www.rajusarma.com.np

Obsessed with Front End Development. Courteous and enthusiastic in IT and everything around its orbit. I recently began to be fascinated by web development. Interested in research and putting effort in getting a job done in a certain period.

Projects:

BLOG FEB 2023

Created a simple blog displaying web app using React and GraphQL. It displayed the listing of blogs from the database using react built in hooks.

Tech Used: React, GraphQL, Tailwind CSS

PERSONAL PORTFOLIO AUG 2023

Created a personal portfolio using React and its animation libraries like: (framer-motion, AOS)

ECOMMERCE WEBSITE AUG 2022

The app basically did crud operations (Delete, Read and Update).

For the API (JSON server was used)

Tech used: Tailwind CSS, Vue JS, JSON Server

B-SERVICE JULY 2022

The app showed the details of the vehicle users, list of vehicles, list of destinations. Third-party API (Map Box) was used too to create a map layout and for the shortest path too.

Tech used: HTML, BOOTSTRAP, Laravel, JavaScript.

BILLING SOFT MARCH 2021

The application was made for keeping records of the products, supplier details and everything related to the selling and buying system.

Tech used: HTML, BOOTSTRAP, LARAVEL

Soft Skills:

Communication, Problem-Solving, Adaptability, Attention to details, Teamwork, Creativity

Technical Skills:

NextJS, React, Vue JS, Java Script, Laravel, HTML, CSS, GitHub, Linux , GraphQL, Tailwind CSS , Bitbucket, Jira, React-Bootstrap

Experience:

Tegzy 2022-2022 (4 months) *Front End Developer*

Worked as a software engineer in maintaining and writing reusable components with collaborating with other developers using code maintaining software

- ☐ Resolved issues and helped break down the bugs in the programs.

BLUE FOX PVT. LTD 2020-2021 (3 months) *Front End Developer Intern*

Worked as a junior frontend developer intern and helper of the senior developer in keeping the record of projects done. Created front-end UI using bootstrap custom and already existing templates.

- ☐ Resolved issues and helped break down the bugs in the programs.
